

Recruitment criteria

The criteria of recruitment to the Doctoral School in the Humanities (Interdisciplinary and cross-domain Program) at the Jagiellonian University in the NCN OPUS 21 project “Normality under uncertainty. Praxeological approach in research on the (re)production of 'normal' urban life” (PI: dr hab. Marta Smagacz-Poziemska, prof. UJ).

The enrolment follows the usual criteria established by the appropriate ruling of the Senate of the Jagiellonian University (nr 55/VI/2020) and Regulations for awarding NCN scholarships for NCN-funded research projects.

Formal criteria

1. A candidate will be required to have an MA or equivalent within the meaning of the Act on Higher Education and Science of 20 July 2018.
2. Application completeness

Specific criteria:

1. A topic of the planned PhD should be strictly connected to research tasks of the project
2. A candidate should demonstrate:
 - documented knowledge of contemporary performative theories and practices;
 - keen interest in speculative fabulations, performative and curatorial practices reflected in the PhD project proposal
 - good command of English and Polish in writing and speaking. Willingness to write the PhD thesis in English. A good knowledge of any other foreign language will be an asset
 - experience in academic research and/or a desire of scientific development through work on publications, presentations and dissemination of the project results
 - willingness to commit to the project for four years, and to write a transdisciplinary PhD thesis on the project's topic.
 - reliability, diligence, dutifulness, team work ability.

At first stage, the **recruitment committee** evaluates submitted documents:

1. research project embedded in the project (ca. 1800 characters including spaces) – mandatory;
2. Detailed justification for the choice of the Jagiellonian University academic unit (faculty/institute/department/research group) – (max. 900 characters including spaces) – mandatory;
3. Reference form;
4. PhD project embedded in the NCN project “Normality under uncertainty (...)” (in Polish or in English), 7200–8000 characters including spaces (a literature does not count in the character limit) and containing: 1) the aim of the project and the research

problem/hypothesis, 2) state of the art, 3) justification for tackling a specific scientific problem in the context of the discipline, the impact of the project results on the development of the research field and scientific discipline; 4) research methodology; 5) project literature (max 20 publications).

Max score: 60 points

5. an academic article or a sample essay to demonstrate their research competence (in Polish or in English) max. 18 000 characters including spaces.

Max score: 30 points

6. CV (including academic achievements, exchange stays, internships, publications, presentations; non-academic experience etc.)

Short-listed candidates (minimum 60 points) will be invited for an online interview.
